

Clear identification, cleanliness, sterilizability, and permanence are offered with AdvantaPure™'s AdvantaLABEL™ tagging system. AdvantaLABEL eliminates the issues involved with old-style metal, plastic, or even paper tags. Since the label is sealed to the hose in clean silicone, it can be either steam sterilized (SIP) or chemically cleaned (CIP) many times without degradation of the label.

AdvantaLABEL is custom configured to meet your specific needs – part number, manufactured date, planned replacement date, or any specific information you deem critical. Contact your AdvantaPure representative today to see how AdvantaLABEL can solve your hose tagging needs.

KEY FEATURES

- O.D. mounted – does not contact material flow
- Permanently vulcanized silicone
- Easy to read – remains bright after repeated sterilization
- Autoclavable
- Zero entrapment
- Handles clean-in-place (CIP) or steam-in-place (SIP) processes
- Customer supplied text is application specific
- Add color striping for quick line identification – 10 standard colors available*

What Products Does AdvantaPure Offer?

AdvantaPure's prime product offerings consist of low-volatile platinum silicone tubing and hose meeting USP Class VI, FDA CFR 177.2600, and ISO 10993, and overbraided PTFE hose.

Our line of products includes:

- Unreinforced 50 Shore A platinum silicone tubing
- Polyester or Nomex® braid-reinforced platinum silicone hose
- Stainless-steel wire and polyester or Nomex mesh-reinforced wrapped platinum silicone hose
- Polyester or Nomex mesh-reinforced 4-ply platinum silicone hose
- PTFE hose with stainless-steel or polypropylene overbraiding (with or without overjacketing)
- Rubber-covered FEP, EPDM, or butyl core hose
- Stainless-steel sanitary crimp fittings and complete hose assemblies
- Various custom hose identification solutions including silicone-encased labels with color striping, laser-etched stainless steel collars, tubing/hose printing, and color-striped silicone tubing
- Special cleaning and packaging
