

INJECTION-MOLDED SILICONE STOPPERS

PLATINUM CURED

Manufactured from USP Class VI, platinum-cured silicone elastomer, AdvantaPure's injection-molded silicone stoppers offer the utmost in purity. Manufactured in-house in a clean room environment, they're biologically safe and work with vessels of glass, metal, or plastic. Ideally suited for pharmaceutical, biotech, and laboratory environments.

KEY FEATURES

- Silicone elastomer meets Class VI and FDA standards
- Documented lot traceable
- Smooth, gap-free surfaces for a true seal and a secure environment
- Longer life expectancy, more consistent performance, and higher purity than parts made from rubber or similar materials
- Sterilizable through autoclave or gamma radiation; reusable
- Resistant to cracking and particle migration
- No taste or odor transfer
- Excellent chemical resistance properties
- Withstands temperatures ranging between -100°F (-73.3°C) and 400°F (204.4°C)
- Select sizes available (see back)
- For use with various containers – carboys, flexible container systems, laboratory apparatus and bottles, sampling and storage receptacles made from glass, plastics, or metal
- Available with cored holes for tubing, dip tubes, or vents and with tubing installed
